Product Features

1 Good Mechanical Properties

Stainless steel has good tensile strength, yield strength and other mechanical properties. Its strength, hardness is much higher than copper, aluminium, zinc alloy and other common-used materials. It has resistance to deformation, abrasion resistance and large bearing.

2 Strong Corrosion Resistance

Hand polishing surface is more compact. The surface formed chromium oxide has strong corrosion resistance. The high quality CF8 or 304 stainless steel can bear up to 300 hours salt spray test.

3 Easy to Judge Product Quality

Stainless steel bathroom products usually has polishing finish. It can be judged quality by eye directly. Do not need to worry about coating problem.

4 Long Service Life

Stainless steel bathroom products have good properties of mechanical and corrosion resistance. If it is installed properly and maintained well, that can be used for decades or even longer.

5 Easy Cleaning and Maintenance

Polishing finish is not easy to attach dust, therefore, it is convenient to clean and maintain. And, it can ensure products to look new for a long time, and will not fall off coating or oxidation.

6 Environment Friendly

Stainless steel does not contain lead and other harmful heavy metals. The material is safe to make faucet.

FOR BETTER LIVING

WORLD PROJECTS

People-oriented design concept, advocating the perfect combination of vision and touch, difficult to detect exquisite details, fully elegant and noble.

PATENT CERTIFICATION

INDICATION OF PRODUCT USE PLACE

Home is a port. You will feel comfort when you return home and enjoy life in each evening, which is the most comfortable experience.

The small space with huge show our endless creativity and also show our specialization.

Simple and unique design elements fully demonstrate trendy style, simple but delicate and unusual, full of fresh and trendy life sense. We are happy in designing every brilliance for life. We are creating happy home, for enjoyment of fashion and harmony.

Product Name: Strip
 Main Material: PVC
 Finish: Transparent/Black
 Glass Thickness: 8/10/12mm
 Install Method: Clip the glass at side

WJT10010

Original Code: JT101
 Function Features: Resist water-penetration from the bottom of door sash and the side of door.

WJT10020

Original Code: JT102
 Function Features: Resist water-penetration at the side hung door which can open 180°

WJT10030

Original Code: JT103
 Function Features: Resist water-penetration at the side hung door which can open 90°

Installed on the fixed glass or glass door leaf, to seal, buffer and positioning.

Product Name: Strip
 Main Material: PVC
 Finish: Transparent/Black
 Glass Thickness: 8/10/12mm
 Install Method: Clip the glass at side

WJT1003T

Original Code: JT103T
 Function Features: Resist water-penetration at the gap between sliding glass doors and fixed glass

WJT10040

Original Code: JT104
 Function Features: Waterproof at the side hung door which can open 135°

WJT10050

Original Code: JT105
 Function Features: Resist water-penetration from the bottom of door sash and the side of door.

Installed on the fixed glass or glass door leaf, to seal, buffer and positioning.

Product Name: Strip
 Main Material: PVC
 Finish: Transparent/Black
 Glass Thickness: 8/10/12mm
 Install Method: Clip the glass at side

WJT10060

Original Code: JT106
 Function Features: Resist water-penetration from the crack of door

WJT10080

Original Code: JT108
 Function Features: Resist water-penetration from the crack of sliding glass door.

WJT10090

Original Code: JT109
 Function Features: Seal up between glass and wall or ground.

Installed on the fixed glass or glass door leaf, to seal, buffer and positioning.

Product Name: Strip
 Main Material: PVC
 Finish: Transparent/Black
 Glass Thickness: 8/10/12mm
 Install Method: Clip the glass at side

WJT10110

Original Code: JT111
 Function Features: Seal up the fixed glass connecting place.

WJT20010

Original Code: JT201
 Function Features: Resist water-penetration from the crack of side-hung door which can open 180° or 90°

WJT20020

Original Code: JT202
 Function Features: Resist water-penetration from the crack of sliding glass door.

Installed on the fixed glass or glass door leaf, to seal, buffer and positioning.

Product Name: Strip
 Main Material: PVC
 Finish: Transparent/Black
 Glass Thickness: 8/10/12mm
 Install Method: Clip the glass at side

WJT20030

Original Code: JT203
 Function Features: Resist water-penetration from side-hung door crack when installed at 135°
 Install Method: Clip the glass at side

WJT30010

Original Code: JT301
 Function Features: Resist water-penetration from 2 nos door sash and fixed glass door.
 Install Method: Matched with WJT20030

WJT40010

Original Code: JT401
 Function Features: Seal up the position of side profile.
 Install Method: Put in profile groove, using with WTL30010 or WTL30020.

Installed on the fixed glass or glass door leaf, to seal, buffer and positioning.
